DETAILED ACTION

1. The terminal disclaimer filed on July 31, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,780,996, and US application 10/980,097 has been reviewed and is accepted. The terminal disclaimer has been recorded.

2. The declaration filed on July 31, 2008 under 37 CFR 1.131 is sufficient to overcome the Boschelli reference.

3. This application is in condition for allowance except for the following formal matters:

Claims 63-65 contains subject matters that are distinct from the examined invention.

Particularly, Claims 63-65 encompass composition containing compound as defined by formula I therein wherein X is N, classified in class 514, and subclass 253.06.

The compounds in claims 57-62 drawn to compounds wherein X is CH and classified in class 514, subclass 313.

4. Inventions defined by claims 57-62 and invention drawn to composition comprising compounds defined by formula I, wherein X is N are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions have different modes of operation. Particularly, the compounds there are structurally distinct as evidenced by the difference class/subclass.

5. Since, applicants elected a compound species in claim 60, applicants inherently elected the invention defined by claims 57-62. Subject matter in claims 63-65 drawn to composition

comprising compounds defined by formula I, wherein X is N is herein withdrawn as drawn to non-elected invention.

Claims 63-65 are objected as the claims contain non-elected subject matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
